

5101:3-27-02 Coverage and Limitations of Medicaid Community Mental Health Services. This rule has been amended to more clearly articulate that community mental health services covered under the Ohio Medicaid program must be rehabilitative. Rehabilitative services provide for the maximum reduction of mental illness and are intended to restore an individual to his or her best possible functional level. ***Please note that these amendments do not authorize the denial or recovery of Medicaid reimbursement based on diagnosis alone.*** This rule was also amended to include CPST and Mental Health Assessment as services eligible for Medicaid reimbursement when rendered via interactive videoconferencing technology.

The ODMH Certification Standards can be accessed in their entirety on the World Wide Web by going to <http://www.mh.state.oh.us/legaldiv/general/rules.html>. Then, scroll down to where the Standards begin, at 5122-24-01. The Standards end with 5122-29-29. Also, both the Ohio Revised Code and the Ohio Administrative Code can be found at <http://codes.ohio.gov/>.

REQUIRED ACTION: Update hard copies of the ODMH Certification Standards and the ODJFS Medicaid rule, if necessary

DATES FOR REQUIRED ACTION: July 1, 2008
