Important information for people filing the reports: You can copy the narrative sections of the report from a word document and paste them into the electronic report. Both reports must be completed in one sitting; you cannot save a partially completed report and complete it later. Each report can be entered from a given computer only one time. Therefore, if you need to enter the same report a second time, you will need to do so from a different computer.

If you have any questions or problems filing these reports, please contact Diane Nutter, ODMH Office of Children's Services at diane.nutter@mh.state.gov or by phone at 614-466-6386.
