

## GUIDE FOR ODMH CERTIFIED AGENCY & SATELLILTE LIST BY COUNTY

The ODMH Certified Agency & Satellite List by County is a listing of all agencies that are certified by the Ohio Department of Mental Health. This list contains all sites by the county that the site is located. The counties are in alphabetical order in Excel so that it can be sorted by the user to meet their needs. Note that the field “Location” indicates whether the site is the main site of the agency or a satellite. When you scroll across the page, you will see the name, address and telephone number followed by a listing of all of the ODMH services that can be certified. A “0” under a service indicates that the site is not certified for that service. A “1” under a service indicates that the site is certified for that service. As a reminder, all ODMH services are not ODMH covered Medicaid services. The Medicaid covered services are:

Pharmacological Management  
Mental Health Assessment (non physician)  
Mental Health Assessment (Physician)  
Behavioral Health Counseling & Therapy  
Crisis Intervention Behavioral Health Services  
Partial Hospitalization, less than 24 hours  
Community Psychiatric Supportive Treatment Services

A listing of all agencies that have Medicaid Agreements are also on the ODMH Medicaid website under “Exhibits”. This list is by county of the main site for the majority of the agencies.
